

Killer On the Road

Babes In Toyland

When I saw the sign, it was the first day
Heading south to the north
I went the long way I came back
What's left you left me I felt you, U-turns constantly
No stopping, no stopping, no stopping now
No stopping, no stopping, no stopping now
No stopping, no stopping, no stopping now
How many, how many killer on the road
How many, how many killer on the road
I see the way home, the exit's closed now
Objects are closer than they appear
The sun is in my eyes and though I can't see you
If I don't see you anymore I'd be okay
No stopping no stopping no stopping now
No stopping no stopping no stopping now
How many, how many killer on the road
How many, how many killer on the road
Punch up your little punching bags
How'd you like it up your ass?
Little man little man with a plan
You've got a flat tire now watch out
Little man little man in a van
How you gonna knock their lights out?
Little man little man with a fan
How many have you had about?
Punch up your little punching bags
How'd you like it up your ass?
Little man little man with a plan
How many have you had
How many have you had about?
