Dynamite

Amaranthe

Face it

I told you I'm on fire

But I am energized

And won't apologize

I'm digitalized, I'm hypnotizedNo excuse

Break the bonds, a gasp of air

My will is strong

Get out of here my mind is futile

I'm just a statuette

Without a timer set

While I apply my dynamiteCome on believe me

You can't deny

From the blaze in my eyes

I am hypnotized and

I can achieve it

I will arise

Like the fire in the sky

I am dynamiteFace me, I belong in the fire

And I am synchronized

I have been optimized

I'm crystallized

I'm liquefied yeaLight the fuse, see the sign

Unbalanced heart

I'm in my prime

Get out of here while there is still time

I'm reaching overload

I'm going right on top

While you abide my dynamiteTell me command me

I'd walk through fire and stone if you want me

and no one can stop it

If you want it

I can achieve it if only you ask me

you better believeTell me command me

I'd walk through fire and stone if you want me

and no one can stop it

If you want it

I can achieve it if only you ask me

you better believeCome on believe me

You can't deny

From the blaze in my eyes
I am hypnotized and
I can achieve it
I will arise
Like the fire in the sky
I am dynamiteCome on believe me
You can't deny
From the blaze in my eyes
I am hypnotized and
I can achieve it
I will arise
Like the fire in the sky
I am dynamite
