# Madness

## Transplants

Madness! Madness!
This is pure madness that we're talking about
Pure madness all the time now
This is pure madness that we're talking about
And I can't believe they wanna do it againWe gonna have to get 'em up, they gonna have to get me off
And you win some you lose some, so take this as loss
And 'cause a motherfuck smiles, don't mean that motherfuckers' soft
I'm laughing all the while, while they come to hall you offI got the powers got my powder, cops is casing the scene
That's how it goes something in me steady chasing the green
It's strictly cash only basis, but you're digging in your chest
Let's fuck 'em out everybody where it's mutual respectMadness! Madness!
This is pure madness that we're talking about
Pure madness all the time now
This is pure madness that we're talking about
And I can't believe they wanna do it againSkinhead rob fuck a bitch, no I never gave a shit
Good or bad present, past, no I never save a bitch
Suck I dick, I need a down, bitch one that ain't too flossy
One that's down to hold my work and bust the heat to get em' off meShe's the baddest, I mean baddest bitch that's up in the club
Same one that's in the parking lot reloading the snug
That's the one who get my love and you can't call it what you want
Or if that bitch is down to ride, that's the bitch that I'mma fuckMadness! Madness!
This is pure madness that we're talking about
Pure madness all the time now
This is pure madness that we're talking about
And I can't believe they wanna do it againI'm from the west coast, best coast pump in the trench coat
Nothing like columbine everybody gets smoked
Heard that I got smoked, naw all's I gots smokes
Best Mary Jane right down to the rock cokeYou're being jipped, so take 'em to the river
Had to drop a tall can, I was fucking up my liver
Yet, still I deliver like the first of 15
And I still make you quiver like your first 16thMadness! Madness!
This is pure madness that we're talking about
Pure madness all the time now
This is pure madness that we're talking about
And I can't believe they wanna do it again
