

# Turn On the World

**Dr. Hook**

(Shel Silverstein) Turn on the world, give them a taste of how free your love can be  
Turn on the world, you don't wanna waste all your warmth on me  
You say you've got wings, teach them to fly  
Teach them to love and not question why  
Teach them to live and then just watch them die  
As you turn on the world Turn on the world, I'm just one man and that ain't enough for you  
Turn on the world, you know you can girl, it won't be too tough for you  
Reach for your star, ride the highway  
Pick up the souls that wait to be saved  
All you can give me you already gave  
Now go turn on the world But where my mind goes now, is no longer your concern  
You're hearing new voices now  
And I'm just a bridge to burn  
You've got so many choices now  
You don't know where to turn, turn, turn  
Turn on the world Turn on the world, live life to the hilt, march to your own sweet tune  
Turn on the world, don't stop for the guilt 'cause it might ruin your afternoon  
You say I should smile, stand and be strong  
'Cause we had our time, and we sang our song  
Don't worry about me babe just run along  
And go turn on the world Oh show them how real your love can be  
Turn on the world  
You don't wanna waste, don't wanna waste  
Don't wanna waste an hour on me You say you've got wings, teach them to fly  
Teach them to love and not question why  
Teach them to live and then just watch them die  
As you turn on the world Go now (c)1972 Tro-Essex Music Ltd.
