

# That's Just Me

## No Doubt

You think that I will change  
But you know that will never be  
I'm just that way  
And that's just me Well it's just the way I am  
And I am doing all I can  
Why can't you see  
I just can't change I could care less what you see  
I'm just never the less here for me  
You're always getting what you want  
But you still keep looking I guess you're just never getting what you need  
With your eyes wide open  
You still keep looking for your dreams  
That's just me It doesn't matter what you say  
My confidence will lead the way  
Words will never do, sad but true And if I didn't act this way  
Well it just wouldn't be the same  
That wouldn't do, 'cause I'm not you And I could care less what you see  
I'm just never the less here for me You're always getting what you want  
But you still keep looking  
I guess you just never getting what you need  
With your eyes wide open You still keep looking for your dreams  
That's just me  
With your eyes wide open  
You still keep looking for your dreams That's just me  
That's just me  
That's just me That's just the way I am, I am no Larry or a Sam  
Why can't you see, I'm just that way! Well there it is,  
It's right here, so crystal clear  
Well there it is,  
It's right here, so crystal clear in front of my face! You're always getting what you want  
But you still keep looking  
I guess you just never getting what you need  
With your eyes wide open You still keep looking  
Eyes wide open  
You still keep looking  
With your eyes wide open  
You still keep looking for your dreams, yeah  
That's just me, oh! Ah, you're always getting what you want  
But you never get what you need

You want it  
I guess you just ?Looking for your dreams  
Your dreams!  
You're looking for your dreams  
You're looking for your dreamsYour dreamsI could care less
