

Kandi

One Eskimo

You've been my queen for longer than you know
My love for you has been
Everything step I take
Every day I live
Everything I see And if I get things wrong
Don't want you to think I'm running away
But I heard from Jo about this guy And I want to know What did he say?
He called me baby, baby all night long
What did he do?
He called me baby, baby all night long Why? Why? Why, did you need him?
Where was I?
Just how close to you is he?
Every smile you gave
Every touch you made
Every word you said And it hurts beyond hurt
It was a love that blinds
And a love that stings
When I heard from Jo about this guy
And I want to know What did he say?
He called me baby, baby all night long
What did he do?
He called me baby, baby all night long
What did he do? He called you baby, baby all night long
What did he do?
He called me baby, baby all night long
What did he say?
He called me baby, baby, all night long
What did he do?
He called you baby, baby, all night long I know he called you babe
All night long
