

# First Light

## Starset

Cascading waves of change

The future we think to be inconsequential, can effect the future indefinitely  
Once you had the power to effect monumental change, would you let fear consume?  
Or would you overcome?

We sent a message into the past, a warning...  
We have that message Though this story is not inevitable, and a society does evolve.

We can change our fate,  
We can change the future,  
We can change the past.
