

# Lost At Sea

## The Steppas

Here I am, see with my heart in my hand  
Love is the plan  
And you are the key, my darling come rescue me  
Iâ€™m lost at sea  
Sit all alone, there is no light to lead me to my home  
But I hear you calling me, my darling come rescue me, I.

I take a walk up to first street then trod up to second street  
I try to find my way back home  
Itâ€™s a feeling that we all have been feeling said love is no more  
When being alone, on my own  
Ohh, I must stay strong, yeah I  
This feeling has got to be, my darling come rescue me.

Yupp, I said Iâ€™m walking and Iâ€™m walking and I still canâ€™t find my way  
One more second, one more minute, one more hour, one more day  
Far from the city where Iâ€™m losing it that steals my heart away  
I left my soul behind for one to find and live another day  
I say you think this song it is for you  
I bet your sitting there and I bet your smiling too  
You and your girls got your only point of view  
Sitting at the top looking down at the bottom at me staring back at you.
