

# West Coast Christmas

## Anarbor

It gets a little chilly right about this time each year  
And it's a little silly that it's 92 out here  
But where I'm from, we drink Corona,  
Smoke on 'em, and wait the sun  
Life is easy, so feel like whiskey  
And everybody sing along  
Chorus:  
Oh, oh, oh

We know it never snows, gonna race in the desert sun  
And on the West Coast, in the best coast, everybody sing like  
So much Christmas cheer, cracking all the beer  
Ain't no right or wrong, West Coast Christmas song  
We all laugh and sing, maybe smoke some green,  
That's where we belong, singing the West Coast Christmas song  
Chillin' by the fire with a smile from  
to-ear

We don't need no Christmas trees cause we got cactus right here  
And where I'm from, they wear bikinis, we don't need no Jack and some  
Life is easy, so feel like whiskey, and everybody sing along  
Chorus:  
Oh, oh, oh

We know it never snows, gonna race in the desert sun  
And on the West Coast, in the best coast, everybody sing like  
So much Christmas cheer, cracking all the beer  
Ain't no right or wrong, West Coast Christmas song  
We all laugh and sing, maybe smoke some green,  
That's where we belong, singing the West Coast Christmas song  
Cause where I'm from, we soak  
sunshine

I got the desert on my mind  
Life is easy, so feel like whiskey, and everybody sing along  
Chorus:  
Oh, oh, oh

We know it never snows, gonna race in the desert sun  
And on the West Coast, in the best coast, everybody sing like  
So much Christmas cheer, cracking all the beer  
Ain't no right or wrong, West Coast Christmas song  
We all laugh and sing, maybe smoke some green,  
That's where we belong, singing a West Coast Christmas song  
A West Coast Christmas song
