Let Go of My World

Testament

Listen now
To my sordid tale
My words they speak to you
They testify
You can't deny
You see it's on so trueI dwell in thoughts
Of the universe
What's immorality ?
It's said to be
The lies they breed
The pages start to bleed
How can this be ?Let go of my world
Let it goTouch my soul
With subliminal sin
Deceptions they induce
Ingest the lies
Dissect the mind
You can't control the youthEnslave the free
With conformity
Oppression takes its toll
Hey little man
Who are you
To try to take control
Of my soulLet go of my world
Let me goBleed me dry
Read between the lies
Filter out the truth
Pick at my brain
Brand me insane
I know what I must doTake my life
Into my own hands
My sins I will atone
It I don't cry
I will reside
Inside mental home
Home sweet homeLet go of my world
Let go of my world
Let go of my world
Let it goLet go of my world
