Hothead

Duran Duran

Here in the shadows where we stand
Watching lady, watching man
Reading for pictures as they roll
We see the planet lose control
Hothead, evolution, nonstop evolution
Hothead, evolution, nonstop evolution
(Hothead)
Time, time will change the picture
About time
Time will change the picture
How to change the point of view
'Bout what is fake and what is true
Blow by blow you're tellin' me
You'll change the course of history
Hothead, evolution, nonstop evolution
Hothead
Hothead, evolution, nonstop evolution
Hothead
(Hothead)
Bop bop bop
Bop bop bop
Bop bop bop
Time, time
I turn you on you turn me off
Right now I'm sufferin' from this culture shock
You spread confusion wherever you can
With shakin' heads and shakin' hands
Use propaganda to manipulate
When they make a bust you protect the state
Then the body break and the body tumble
So you build it up, then you watch it crumble
Time will change the picture
(Evolution, nonstop evolution)
About time, time will change the picture
(Evolution, nonstop evolution)
About time, time will change the picture
(Evolution, nonstop)
