

# Michigan Girls

## Califone

In the marble of your animal eyes  
Take my comfort anywhere  
Dry white scratches on a sunburnt shin  
Don't give it a name  
Drowned and drinking the light  
God's eyes are closed  
Just like yours

Straw bones nails of November clay  
The way you kiss your uncle on the mouth  
Slow learner keep forgetful don't give it a name  
Drowned and drinking the light god's eyes are closed  
Just like yours

Black sea resort off season days  
Broke heels and bare legs  
Pink waterline gave up on your twisted code  
God's eyes are crossed maybe just like yours

---
