Gotta Go (Can't Wage a War)

Kingdom Come

Now is the time
I hear the war, it calls my
Name
Lands' far away
Hoping i'll return the same
How will I face tomorrow
How can I face the pain
How can I face the sorrow
Fighting in vain
I've gotta go
Go and fight someone I
Don't even know
I think you know
They can't wage a war if
Nobody shows
Red is the sky
I hear the guns and
Shouting painSun doesn't shine
Shadows cross this bloody
Rain
How can we stop the
Hurting
How can we love again
Why is the world still
Burning
How can we change
I've gotta go
Go and fight someone i
Don't even know
I think you know
They can't wage a war if
Nobody shows
Don't wanna go
Go and fight someone i
Don't even know
I think you know
They can't wage a war if
Nobody shows
