

# All That Makes Me Happy Is the Blues

## Buddy Guy

i've been .. so bad, since she's been gone  
i've tried to take comfort  
in some old sad song  
cause i feel a little better  
no one someone hurts the way i do  
yeah! when i'm this far down  
all that makes me happy is the blues all they talk on TV  
they shout about something  
nobody listen  
nobody say nothing  
seem like my old guitar  
is the only face i find the truth (yeah)  
this all world is going crazy,  
all that makes me happy is the blues i'd love to hear that sweet Memphis song  
and that good old funky rock n roll  
oh when i need some healing  
the only thing i turn to  
all that makes me happy is the BLUES
