Wasted Time

Europe

Blood's been spilled throughout all times
We should know better since we've been around
There's been changes, there's no denying
But in what direction is the good sense flyingThis world so endless blue
Is better for lovers
You cry 'cause you don't know if it's true
If all those years've been wasted time
Wasted time, wasted timeEvil strikes, you feel the fear
The vision of the future is no longer clear
In your mind you see yourself
Running and hiding, you're somebody elseThis world so endless blue
Is better for lovers
You cry 'cause you don't know if it's true
If all this time's been wasted time
Wasted time, wasted timeBlood's been spilled throughout all times
We should know better since we've been around
There's been changes, there's no denying
But in what direction is the good sense flyingThis world so endless blue
Is better for lovers
You cry 'cause you don't know if it's true
If all this time's been wasted time
Wasted time, wasted timeWasted time
Wasted time
Wasted time
