

All Devils Eve

Venom

All Devils Eve, the witches exchange energy
Black warlocks concentrate predicting prophecies
Announcing serenade, uniting under stars
The celebration, desecration from afar Secret evening, thunder
Pagans dancing under
Pale moon rising, watching
Starlight gazes, catching All Devils Eve
All Devils Eve All Devils Eve, the candle red alights the queen
The black familiars in pentacles of green
Flowing the bloodline past millenia, so strong
Reciting atmospheres to tangle mortal song Secret evening, thunder
Pagans dancing under
Pale moon rising, watching
Starlight gazes, catching All Devils Eve
All Devils Eve All Devils Eve, electric orgy spells are cast
Magnetic impulses circles painted last
The psychic inspiration rings the pewter bell
The bond exists in consciousness invisible Secret evening, thunder
Pagans dancing under
Pale moon rising, watching
Starlight gazes, catching
Evening on all Devils Eve
