

# Cold Under Water

## Darkseed

I dive into the sea  
To realms of unknown blue  
I break the surface  
To drown in nothingnessCalm before the storm  
Storms drowning everythingFloods drowning all  
You're sinking down  
Water, deep, blue, cold  
The sea's calling You  
Floods drowning all  
Blue dimensions  
Water, deep, blue, cold  
Destroying allAnd the flood's destroying all  
And the world is sinking down  
Blue dimensions over us  
Our world is dying  
I dive into the sea  
To realms of unknown blue  
I break the surface  
To drown in nothingnessBlack clouds appear  
And the rain falls  
Lands under water  
They sink into forget  
Cold under water  
Lies the wreck called mankindFloods drowning all  
You're sinking down  
Water, deep, blue, cold  
The sea's calling You  
Floods drowning all  
Blue dimensions  
Water, deep, blue, cold  
Destroying allAnd the flood's destroying all  
And the world is sinking down  
Blue dimensions over us  
Our world is dying  
I dive into the sea  
To realms of unknown blue  
I break the surface  
To drown in nothingness
