Gone Gone Gone

Ladyhawke

Ive pulled us another plan
But its pulling me into the ground
Well be together again
But only if youll play alongYoure everything I could ever want
Just save your advice for another girl
One night inside my head
And youre gone, youre gone, youre gone
Two years without a word
And youre gone, youre gone, youre really goneId never thought youd be
The one afraid of me
I wouldve set you free eventually
And now youre out of sight
I hope you feel alright
Cause youre gone, youre gone, youre really goneIll never regret a thing
Cause my mind is already too gone
Sleep well, without a care
Ill only catch you in your dreamsYoure everything I could ever want
Just save your advice for another girl
One night inside my head
And youre gone, youre gone, youre gone
Two years without a word
And youre gone, youre gone, youre really goneId never thought youd be
The one afraid of me
I wouldve set you free eventually
And now youre out of sight
I hope you feel alright
Cause youre gone, youre gone, youre really gone(Youre gone, youre gone, youre gone)
(Cause youre gone, youre gone, youre really gone)Youre everything I could ever want
Just save your advice for another girl
One night inside my head
And youre gone, youre gone, youre gone
Two years without a word
And youre gone, youre gone, youre really goneId never thought youd be
The one afraid of me
I wouldve set you free eventually
And now youre out of sight
I hope you feel alright
Cause youre gone, youre gone, youre really goneCause youre gone, youre gone, youre gone
Cause youre gone, youre gone, youre really gone x2

Cause youre gone, youre gone, youre gone
(Cause youre gone, youre gone, youre gone)
Cause youre gone, youre gone, youre gone
