

Promises of no man's Land

Blaudzun

Save
Save grace for leap day
No room for tears
Outside this doorGo
Please daddy I'll show
My Friday night bruises
I will fight this warOur home feels like a foreign land
A land not safe from torment
The promises of no man's landWe'll feel the sons and daughters
Who fear to cross the borders
In the promises of no man's landChorus
When the heat is on
If the heat is on
And the heat is on
It's your pride don't waste it allBurn
Go and watch me burn
through the fire
I will returnOur home feels like a foreign land
A land not safe from torment
The promises of no man's landWe'll feel the sons and daughters
Who fear to cross the borders
In the promises of no man's landChorus
Chorus
Chorus
