

My Funeral

Dope

Now as I lay here in the dark
And I think back to the start
I know some things have to end
For the next one to beginI walk alone, free at last
I feel the pressure, letting go
From the very bottom of my soul
Flesh and bone fall to past
Like the ashes in the rain and fade awayIt's my funeral, welcome you all
This is the end of the line
So thank you for coming along
My time has come, I don't wanna leave you behind
But this one I'll do on my ownNow as we stand two worlds apart
The times hardened up my heart
From a world of no regrets
That I hope won't soon forgetI walk the line, on broken glass
I let the passion take control
Of the very bottom of my soul
Cross the line, fade to black
Hold the candle to the flame and light the wayTo my funeral, welcome you all
This is the end of the line
So thank you for coming along
My time has come, I don't wanna leave you behind
But this one I'll do on my ownIt's my funeral, welcome you all
This is the end of the line
So thank you for coming along
My time has come, I don't wanna leave you behind
But this one I'll do on my ownThis is the end of the line
So thank you for coming along
My time has come, I don't wanna leave you behind
But this is the end of the line
It's my funeralIt's my funeral
