

Perfect Ten

[Anna Waronker](#)

You don't hug and kiss me anymore
I want you in stitches on the floor
Woo me once twice and don't do it again
Expert advice says it's all in the men Won't you love me again?
Won't you love me again?
Won't you love me again? Anxious, uptight, low track, one self mind
Take this, take that, take me all of the time
Woo me once twice and don't do it again
Don't you know me, hey, I'm your best friend? Won't you love me again?
Won't you love me again?
Won't you love me again? When you say that you love me again
You won't mean it like you did back then
When you say that you love me again
C'mon Catwalk, sweet talk, love me, you love me not
Ass-kiss, nose wipe baby stoned on pot
Use me once twice and don't do it again
This time's the last time 'cause baby I'm your perfect ten When you say that you love me again
You won't mean it like you did back then
When you say that you love me again
You won't mean it like you did back then When you say that you love me again
When you say that you love me again
When you say that you love me again
C'mon [Incomprehensible]
