

Time's Running Out On Me

Third Day

There's so many places I wanna see
So many things that I wanna be
But time's running out on me
There's so many places I gotta go
So many things that I need to know
But time's running out on me
Time's running out on me Tell me how this started
Look what I've become
Here with all of my regrets and broken dreams
Are you gonna help me find the strength to carry on
'Cause time's running out on me, yeah
Time's running out on me There's so many things that I've yet to do
So many things that I need to prove
But time's running out on me
So many things that I need to say
But I let the words get in the way
And time's running out on me, yeah
Time's running out on me, yeah
Time is running out on me
Now the end is near...
Time's running out on me...
