

alaska

spheric lounge

Well how're the mountains off the harbor?

And how far are you from shore?

And when your ship,

Oh when your ship comes into port

Would you call?

Oh would you call?

In that cabin in Montana

Was that donkey getting drunk?

Well it's been hell back here in Philadelphia, yeah

And York ain't what it was

Now you know grandpa's washing dishes

He does it when he can

Trying to get this fire started

And I could really use a hand

The dog is barking out back

He thinks he's in the band

Trying to get this fire started

And I could really use a hand

You know I dreamt where

We're at the station

And you asked me if you could go

You know I never really had the chance

To say no

Well it's night time in Alaska

I hear it's dark until the spring

Well it's been hell back here in Philadelphia, yeah

And York ain't what it was

Now you know grandpa's washing dishes

He does it when he can

Trying to get this fire started

And I could really use a hand

The dog is barking out back

He thinks he's in the band

Trying to get this fire started
And I could really use a hand

Well I dreamt where
We're at the station
And you asked me if you could go
You know I never really had the chance
Oh no
To say
