

# Every Second Counts

Chris Rea

Every second counts  
That's what he says  
Every second counts  
Every single day All through the night time  
And all through the day time  
Can't let your world pass through  
And in to my way Every second counts  
He can't slow down  
Every second counts  
See him spin around He's chasing his shadow  
He's racing the wind  
He tells us to follow  
Where the ice is so thin I hope you're holding on  
I hope you're holding on, yeah  
'Cos every second counts I hope you're holding on  
I hope you're holding on  
'Cos every, every second counts Every second counts  
Every second counts  
Every second counts  
...
