

Pretty in Punk

Fall Out Boy

Walking off that stage tonight
I know what you're thinking and
He stands alone because he's high on himself
If you only knew I was terrified and would you mind
If I sat next to you and watched you smile?
So many kids but I only see you
And I don't think you notice me Well, I've seen your boyfriend
And I don't think he treats you right
But that's none of my business, is it? I'm not the way you think I am, girl
I'm not the way you think I am, girl The only girl who ever gave me the time
Was the one who only wanted five minutes of mine
Knocking boots in the back
How degrading is that I decline I'm too terrified and would you mind
If I sat next to you and watched you smile?
So many kids but I only see you
And I don't think you notice me Well, I've seen your boyfriend
And I don't think he treats you right
But that's none of my business, is it? I'm not the way you think I am, girl
I'm not the way you think I am, girl I'm not the way you think I am, girl
I'm not the way you think I am, girl
I'm not the way you think I am, girl I'm not the way you think I am, girl
I'm not the way you think I am, girl
I'm not the way you think I am, girl, girl
