# Circle Of Fear

## Him

Heartache is knocking on her door
Shadows dance outside her window
Tears keep falling on the floor
As the world around her crumbles
If you wanna save her
Then first you have to save yourself
If you wanna free her from the hurt
Don't do it with your pain
If you wanna see her smile again
Don't show her you're afraid
Because your circle of fear is the same
Love can be as cold as grave
A one-way ticket to endless sorrow
An empire of gentle hate
Today without tomorrow
If you wanna save her
Then first you have to save yourself
If you wanna free her from the hurt
Don't do it with your pain
If you wanna see her smile again
Don't show her you're afraid
Because your circle of fear is the same
It's the circle of regret
The circle of hate
The circle of death
Your circle of fear is the same
Your circle of fear is the same
If you wanna save her
Then first you have to save yourself
If you wanna free her from the hurt
Don't do it with your pain
If you wanna see her smile again
Don't show her you're afraid
Because your circle of fear is the same
Your circle of fear is the same
Your circle of fear is the same
Your circle of fear is the same
Your circle of fear is the same
