Ember To Inferno

Trivium

In birth just an ember a spark of creation
Towards genesis
With vision of dominion and godliness
With vision godliness
It will take all you have held
In evolutions design it will burn up
All the obstacles
Changing opposition to a carnal ash
With vision godliness
It will take all you have held
Sacred
With vision godliness
(Chorus)
Stay here till the windows stop burning for your dreams
Till the windows stop burning for your
From ember to inferno
From ember to inferno
In birth just an ember a spark of creation

Towards genesis
With vision of dominion and godliness
With vision godliness
It will take all you have held
Sacred
With vision godliness
(Chorus)
Sacred
In evolutions design it will burn up
All the obstacles
Changing the opposition to a carnal ash
With vision godliness
It will take all you have held
Sacred
With vision godliness
(Chorus)
