# Brothers

## Carpark North

We always said that we'd never part,
that we are one.
Side by side until we die,
we're one when we are three.
We're brothers, you and me.We used to stare at the open sky
and count the stars.
Now we share our dreams up there
cause we're one when we are three.
And we are brothers, you and me.
Oooohhh.We're burning, we're fires in the night.
We're burning, we're fires in the night.
