

Wishing Well

Blind Melon

When you fall back down
And you lost your crown
Get back up, walk around
Turn that frown upside down
Take my hand once again
We will all understand
Help you find a new plan
Whooooooa
It's time to help you
Get you back on your feet and on your way
If the tables were turned around
I know you'd be there for me
It all works out
Don't get lost and forget
Turn the lights off and rest
Don't you worry no more
Heal your pain and your sores
We'll be there when you wake
No more sweat or the shakes

Feel the love if you can
Lost your mind, feel insane
Whooooooa
You're feeling hopeless
And all your dreams have gone away
Take the time to heal your sorrows
And disappear from the world
Live for tomorrow
Hope you changed your ways
There's not much more to say
When the dark turns to gray
Broken hearts fade away
Whooooooa
It's time to help you
And get you back on your feet and on your way
If the tables were turned around
I know you'd be there for me
It all works out
And i hope that it all works out [x5]
