

Ooh I Like Your Loving

Rufus

I refuse to be amused
That's somethin' that ain't right
I declare I'm well aware
I felt the angel's vibes
I can hear you callin', no I'm not stallin'
I'm justa doin' somethin' else
When I'm with you, I'm really with you
But right now I'm by myself and I
I can feel this fire, such a strange desire
As strong as life itself
I, I can feel this fire, such a strange desire
And I don't want nothin' else but ooh I like your lovin'
Talk so much I'm in a flux, you just can't make up your mind
Executin' dreams ain't easy, justa wastin' precious time
Talk is cheap, your words are weak
I don't want you wastin' mine
I hear ya callin', no I'm not stallin'
I'm justa doin' sumthin' else
When we're together, show 'nuff together
Right now I'm by myself and I

[illegible]

Feel this fire, strange desire
Feel this fire grooving
