

Ready for Love - Interlude

[Mario Winans](#)

You should've told me how
You felt the day we met
I probably would of loved you anyway
But instead you led me on to believe
That you were ready for my love
Baby, now it's gone away Tell me why did you say
That you were ready for love
When you knew that you
Hardly ever think of my heart again? Tell me why, why didn't you, baby
Say that you were ready for my love
When you don't even know
What a real love is made of? Tell me, babe
'Cos you hurt me so badly
