

# I See the Devil

## Insane Clown Posse

I see the devil  
Everytime I fuck a bitch  
Tell her I will call her  
Throw her number in a ditch  
Lie to her face  
Just to get my dick blowed  
15 minutes later  
Tell her hit the road

I see the devil  
Everytime I stomp somebody  
Run from the scene  
With my fists all bloody  
Me and my boys  
Beating them down in the street  
The devil was right there  
Watching like sweet

I see the devil  
Everytime I lie to my mom  
Whenever we argue  
I go off like a bomb  
Tell her she don't  
Understand shit about me  
Get in the car  
With my homies and flee

I see the devil  
Everytime I score some meth  
He's standing  
Right behind me like death  
Every hit that I take  
He claps his claws  
Just like he does  
Everytime another soul falls

Running outta time  
Looking for the light  
Something isn't right  
The devils grip is tight

Cause I'm Running outta time  
Leave it all behind  
Cause my souls on the line (ooh ooh oh)  
Can't nobody hide  
From the devil inside

I see the devil  
Everytime I take what ain't mine  
Whether big or something small  
He tells me its fine  
He tells me to snatch it  
Cause its so apeling  
When I lay down at night  
I see the devil on the ceiling

I see the devil  
In every bag of dope I sell  
Every dollar I make  
Brings me closer to hell  
I got bitches on my dick  
And money to spend  
But every road that I take  
I see the devil at the end

I see the devil  
Every time I drink and drive  
I see him right beside me  
Telling me to get live  
He tells me to floor it  
I try to ignore it  
He laughs when we crash  
And everyone's bloods pouring

Running outta time  
Looking for the light  
Something isn't right  
The devils grip is tight  
Cause I'm Running outta time  
Leave it all behind  
Cause my souls on the line (ooh ooh oh)  
Can't nobody hide  
From the devil inside

I cant run  
I cant hide

He's outdoors  
He's inside  
He's right here  
And I swear  
He's claiming my soul to bare

I cant run (no)  
I cant hide (no)  
He's outdoors (no)  
He's inside (no)  
He's right here (no)  
And I swear (no)  
He's claiming my soul to bare

I see the devil  
Everytime I look in the sky  
I see the devil  
In the sun and the moon I won't lie  
I see the devil  
In my own face looking in the mirror  
I see the devil  
In my crew like he's standing right here

I see the devil in the walls  
The devil in trees  
The devil on my back  
I hear I'm in the breeze  
I seen the devil  
Bealzabub with horns and a tail  
But I'm looking for god  
I don't wanna go to hell

Running outta time  
Looking for the light  
Something isn't right  
The devils grip is tight  
Cause I'm Running outta time  
Leave it all behind  
Cause my souls on the line (ooh ooh oh)  
Can't nobody hide  
From the devil inside

Can't find it

From the devil inside

I said I'm sorry

From the devil inside

No! No!

From the devil inside

Noooooooooooooooooooo!

Can't find it

I don't wanna go to hell

Can't see hell

I don't wanna go to heeeeeelllllllllll!

Where to go Where yo go

Noooooooooooooooooooo!

Running outta time

Looking for the light

Something isn't right

The devils grip is tight

Cause I'm Running outta time

Leave it all behind

Cause my souls on the line (ooh ooh oh)

Can't nobody hide

From the devil inside

What have I

What have I found

What have I

What have I found

I see new sight

I hear new sounds

I feel my

My heartbeat pound

What have I

What have I found

What have I  
What have I found

I see new sight  
I hear new sounds
