

Need You Now

Cut Copy

Hush, darling, don't you cry
Hush, darling, don't you cry
'Cause they're never gonna reach you
Never gonna reach you
Hush, darling, don't you cry
Hush, darling, don't you cry
'Cause they're never gonna reach you
Never gonna reach you
In the morning, I can dance
In the morning, I break down
But you're never gonna get away
Gonna get away
I know I'm running, baby
But I need you now
Said I know we're goin' crazy
But I need you now
I need you now
To find somehow
I know we're running, baby
But I need you now
I know we're goin' crazy
But I need you now
Need you now
To find somehow
There's a beauty in the wakin' eye
There's a memory in the wakin' eye
But it's never gonna reach you
Never gonna reach you
In the morning, I can dance
In the morning, I break down
But you're never gonna get away
Gonna get away
Hands touch as you're falling down
Lips touch as you're falling down
Run for the last train
One of them will get you home
I know we're goin' crazy
But I need you now
I know we're goin' crazy

But I need you now
Need you now
To find somehow
I know we're goin' crazy
But I need you now
I know we're goin' crazy
But I need you now
I need you now
To find somehow
But I need you now
But I need you now
Tonight
Tonight
Tonight
