Bite My Tongue

StoneRider

I hate to break it to you but,
You're just a lonely star
I try to bring you down but,
Our level isn't good enough
You always do as you please, so I'm going to follow suit and take a seat.
Watch you fall apart, cause in the end what are you without me?
I'll slow this down cause I know that you can't keep up.
Oh maybe I maybe I was wrong from the start.
I might be proud, but at least I'm proud of something. You've taken pride in becoming nothing
You keep me on the edge of my seat
I bite my tongue so you don't hear me
I wanna hate every part of you in me
I can't hate the ones who made me
I'm married to the music, for better for worse
You say that I'm privileged, but my gift is my curse
I can't recall the last time someone asking how I was
Last I checked I was a fucking wreck, I called for help and no one showed up
So I sit in the dirt
You keep me on the edge of my seat
I bite my tongue so you don't hear me
I wanna hate every part of you in me
I can't hate the ones who made me

You keep me on the edge of my seat
I bite my tongue so you don't hear me
I wanna hate every part of you in me
I can't hate the ones who made me
Just forget what you've learned
Just forget what you've heard
The truth should come first
I can't bear the sight of you anymore
You've become what I hate
Sold yourself for a bit of fame
Now the wolves have closed their doors
You wanna drag me down some more
Fuck you
Fuck you

You keep me on the edge of my seat

I bite my tongue so you won't hear me
I wanna hate every part of you in me
I can't hate the ones who made me
You keep me on the edge of my seat
I bite my tongue so you won't hear me
I wanna hate every part of you in me
I can't hate the ones who made me
