

# Slave

## Amebix

Earth to ashes, buildings to dust  
A radioactive burning crust  
The meek shall inherit all that is left  
Inherit the Earth, a living deathFrom the cradle to the grave  
You made yourself the system's slaveAcid rain, rocks on fire!  
Poison clouds, gods a liar  
There's nothing left, for the meek  
The past is gone the future is bleakFrom the cradle to the grave  
You made yourself the system's slave
