

Cat Turned Blue

Rusted Root

What is that you said
Gotta whistle in the wind yea go down go down go down
Fear for me and I will fear for you, fear, fear
Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
What is that you said
You gotta whistle in the wind and again yea
What is that you said
You gotta whistle in the wind and again yea
Fear for me and I will fear for you

Fear for me and I will fear for you
Fear
Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down
There must be some kinda way out of here
Said the joker to the thief
There's too much confusion
I can't get no relief
When the cat turned blue
When the cat turned blue
When the cat turned blue
When the cat turned blue
What is that you said
Gotta whistle in the wind yea go down go down go down
Fear for me and I will fear for you, fear, fear
Fear whistles in the wind as I go down
Fear whistles in the wind as I blow down
What is that you said
You gotta whistle in the wind and again yea
