

# Listen and Wait

## Grizzly Bear

A joker inside, a Jumbo be re-brought to life  
And it's gone by the night  
The morning brings it back - gave backSet towards the light imagine fades  
The vision running wild  
Hiding the bind a better face smiles shinning light  
Listen and wait to the voice that calls you onCareful find your best way home  
Blinded, blind sided by self  
Bending from that home you always loved, so farDown on the clouds  
Dreams nothing much  
Stay where you are  
No one could know
