

# Until You See

## Marvelous 3

You traded all your tears so I could see a happy face  
You sat alone and read the writing on the wall  
You broke your heart and banged your cool up as you fell from grace  
You should've hung the net before you took the fall  
The lines are pretty long here, but you'll stand here  
anyway(chorus)  
Until you see this ain't going over  
There's nothing left to show for  
Til you see  
Time ain't gonna make up for the times you'd never wake up for me  
I watched you build a castle on the beach  
one rainy day  
I saw it fall apart and roll out with the tide  
I think there's something metaphoric that I'm trying to say  
Open up your soap box and just crawl inside  
The lights are on but no one's home  
Stand there in the dark(chorus)
