Freeze-Dried (F) Lies

Local H

Abusive excuses are all I have to hold
Use and reuse to explain why I'm so cold
One for headaches, one for stress
But the one for fear's the one I like best
Abusive excuses they save me every timeThe slow slide down

You never can see it The slow slide down

You always believe itDestructive impulses and cowardice and lies Buzzing back to life like freeze dried flies

Flies for love and flies for sex

But the flies for fear are flies I like best

Impulsive destruction is where my talent liesThe slow slide down

You're trying to change me

It's all my fault

But you never blame meIt's in everything we do

It's in everything we do

It's in everything we doOne for love and one for sex

But the one for fear's the one I like best

This act is a bore but it makes me who I am

This act is a bore but it makes me who I amThe slow slide down

You never can see it

My act is a bore

You always believe itIt's in everything we do

It's in everything we do

It's in everything we doIt's in everything we do

It's in everything we do

It's in everything we do

It's in everything we do
