

# Somewhere Out There

## Our Lady Peace

Last time I talked to you, you were lonely and out of place  
You were looking down on me lost out in space  
We laid underneath the stars, strung out and feeling brave  
I watched the red orange glow, I watched you float away  
Down here in the atmosphere, garbage and city lights  
You've gone to save your tired soul, you've gone to save our lives  
I turned on the radio to find you on satellite  
Im waiting for this sky to fall, Im waiting for a sign  
All we are is all so far  
You're falling back to me, you're a star that I can see, yeah  
I know you're out there, somewhere out there  
You're falling out of reach defying gravity, yeah  
I know you're out there, somewhere out there  
Hope you remember me when you're home sick and need a change  
I miss your purple hair, I miss the way you taste  
I know you'll come back someday, on a bed of nails Ill wait  
Im praying that you dont burn out or fade away  
All we are is all so far  
You're falling back to me, you're a star that I can see, yeah  
I know you're out there, somewhere out there  
You're falling out of reach defying gravity, yeah  
I know you're out there, somewhere out there  
You're falling back to me, you're a star that I can see  
I know you're out there  
Oh, you're falling out of reach, defying gravity  
I know you're out there, somewhere out there  
You're falling back to me, you're a star that I can see, yeah  
I know you're out there, somewhere out there  
You're falling out of reach, defying gravity, yeah  
I know you're out there, somewhere out there  
You're falling back to me  
I know, I know  
You're falling out of reach, oh  
I know
