

Oversure

Nellie Mckay

Maxie Trip was a very lucky lady
Maxie Trip was a very lucky girl
Who you wanna be? Maxie Trip
Who you wanna see? Maxie Trip
Have you got some time?
Have you got some spine?
Have you got something to begin with
Or are you in a sin-wich?
Have you got some nerve?
Have you got some verve?
Have you got something to depend on
Or do you fender bend on?
And if you say no
Do you mean to go
Down below the earth with nothing?
Have you got my name?
Have you got my fame?
Have you got something to remind you of who you used to be?
Or are you happy being me?
Moonlight and roses
Starlight and fairy tales that won't come true
Good news for those who pine away
The day comes shining through
Kittens high-hattin'
Sitting on satin with a host who's cat nip bound
For those who seize the day
The way is paved be yonder
I didn't know the world was like this
If I'd have known, then I'd be psychic
If I had a clue, then maybe I'd be blue as a mockingbird
Why do you think she laughs so much?
I didn't know I had such problems
If I'd have known, then I'd have solved them
But looking down the road
The Oklahoma Toast beckoning to me
