

In Your Keeping

[Jann Arden](#)

Tell me I will never die
Take away my pain
Rock me gently in your arms
Say that I'll remain in your keeping Brush the hair out from my eyes
Read me a good story
Kiss my finger tips goodnight
Say that I can stay in your company And I know this much is true
I have lived inside of you
You have always seen me through
While I am peacefully sleeping You have always been my friend
I can see your beauty shining
I will love you till the end
Long will I remain in your keeping
