

# Making Friends (13)

## Mew

No way, say  
I'll fit in, because I live here now  
It's alright  
On this street no one looks at the sky  
Summer treats? No, thank you  
Inside, I looked at you  
You were there making friends  
I think so Answer to the clay skulls  
Oh and they sleep late in the warm sun Don't you dare  
Take a bite of your hair  
That's the thing I recognized  
Your flower sun is up, look at that  
Wear a hat, I'll miss you Beautiful, now  
What if our song was forever?  
Couldn't we get some?  
How will it go? Where will we live?  
Beautiful, now  
Sing in our sleep, there's no cover  
What if we get numb, searching for things to discover Answer to the clay skulls  
Oh and they sleep late in the warm sun  
Oh and they don't wanna escape  
We have happy days  
Chase the walls  
Oh and they knock off the bells  
From carousels  
Make you feel so angry Beautiful, now  
What if our song was forever?  
Couldn't we get some?  
How will it go? Where will we live?  
Beautiful, now  
Sing in our sleep, there's no cover  
What if we get numb, searching for things to discover
