

Liberty

Duran Duran

If you wanna stay with me, at your liberty
If you wanna be with me, at your liberty Yeah, ohh, do-doo
I'll tell you something
To let you understand the way I feel, just what you mean to me
Thank you for fine times, we nearly made it all
The way we know, it wasn't meant to be You say we feel the same, there ain't no blame to decide
But if a little time, could change your mind, I'll be here And you can call me
(You wanna stay with me at your liberty)
You can hold me
(You wanna be with me at your liberty) (Do you, do you)
Do you remember, how lover's right for summers, even nights
(Remember)
Would never seem to end
And as December, comes stirring with that finger on desire
(December, desire)
To feel it once again You worry 'bout your friends, what if they find what's goin' on?
(What's goin' on?)
But if you want to try to make it come alive, I'll be here And you can call me
(You wanna stay with me at your liberty)
You can hold me
(You wanna be with me at your liberty)
And you can call me
(You wanna stay with me at your liberty)
And you can touch me girl
(You wanna run to me at your liberty) Help me out
I live in doubt
Sort me out, yeah Don't make it every night, don't wanna be the love of your life
So if you are inclined to spend a little time, I'll be here And you can call me
(If you wanna stay with me at your liberty)
You can hold me
(If you wanna be with me at your liberty)
And you can call me
(If you wanna stay with me at your liberty)
And you can touch me girl
(If you wanna run to me at your liberty) Touch me girl,
(If you wanna stay with me at your liberty)
Help me out
(If you wanna be with me at your liberty)
Sort me out

(If you wanna run to me at your liberty)
Or you can set me free
(If you wanna run to me at your liberty) If you wanna stay with me, at your liberty
If you wanna be with me, at your liberty
If you wanna stay with me, at your liberty
If you wanna run to me, at your liberty
At your liberty
