Heaven

Hurts

In a place close to nowhere
You lift me off the ground
And in your arms it feels like heaven
So wrap your wings around
Lay all over me and cast away my doubt

My heart is empty
And only you can tempt me

Woah oh oh
Is this hell or heaven?
Woah oh oh
I can't tell when we're together

Give me strength, give me shelter
Underneath your shroud
And tell me your love will last forever
And I'll wear your heavy crown
And together we will never come back down

My heart is empty

And only you can tempt me

Woah oh oh
Is this hell or heaven?
Woah oh oh
I can't tell when we're together
[x2]

No matter where I run
There's something about your love
What have I become?
There's something about your love
There's something that makes me lose my mind and never come back down

My heart is empty
And only you can tempt me

Woah oh oh

Is this hell or heaven?
Woah oh oh
I can't tell when we're together
[x2]
