

# Stay Alive

## B.t.o. (bachman-turner Overdrive)

Oh, your fingers were crossed behind your back  
Before you ever gave me a chance  
But now I have learned to trust myself  
And I don't need anyone else  
No one's here to light the candle  
No one's here to light the way  
It's something I will have to handle  
My way  
I've got to open up my eyes  
And find a way to kill the boredom  
I watch the time go by  
Now it's time for me to get mine  
Out of room, out of places to hide  
Backed up in the corner I know I will stay alive  
Out of room, out of places to hide  
Backed up in the corner I know I will stay alive  
The lights are still on  
And I am still here there's nothing left to fear  
A vision I've seen, a fire will burn  
No longer will I wait my turn  
No one's here to light the candle  
No one's here to light the way  
It's something I will have to handle  
My way  
I've got to open up my eyes  
And find a way to kill the boredom  
I watch the time go by  
And now it's time for me to get mine  
Out of room, out of places to hide  
Backed up in the corner I know I will stay alive  
Out of room, out of places to hide  
Backed up in the corner I know I will stay alive  
Stay alive  
Stay alive  
This time, this time  
It's time for me to get mine  
Out of room, out of places to hide  
Backed up in the corner I know I will stay alive  
Out of room, out of places to hide

Backed up in the corner I know I will stay alive  
I will stay alive, I will stay alive  
I will stay alive, I will stay alive
