

# Astronauts

## One eskimO

You float like a baby  
Trying to escape this  
Covered in tar  
But every recording  
You keep distorting  
Like an astronaut

It's a funny old world  
Full of headaches sometimes  
So whenever you need space  
I guess it's okay  
When you're floating away  
To feel nothing at all  
We can be astronauts  
if you want to get out of here

You float like a baby  
Looking for safety  
Somewhere on Mars  
But if I'm mistaken  
Your body's in England  
But your head's in the stars

It's a funny old world  
Full of headaches sometimes  
So whenever you need space  
I guess it's okay  
When you're floating away  
To feel nothing at all  
We can be astronauts  
if you want to get out of here

We can get out of here  
We can get out of here

We can be astronauts  
We can be astronauts

It's a funny old world  
Full of headaches sometimes

So whenever you need space  
I guess it's okay  
When you're floating away  
To feel nothing at all  
We can be astronauts  
if you want to get out of here

We can get out of here  
We can get out of here

We can be astronauts  
We can be astronauts
