Advisory - the following lyrics contain explicit language:

Turn the grey sky into blue  
Taste my love I'm here for you  
Passion takes us high above  
So come on over  
Taste my love Just like a lightning this mind-blowing feeling struck me right out of the blue  
You make me feel like I'm just a heartbeat away  
from the break of day Turn the grey sky into blue  
Taste my love I'm here for you  
Passion takes us high above  
So come on over, taste my love  
This is what I'm longin' for  
Taste my love, I give you more  
More you've ever had before  
Taste my love I close my eyes, I enjoy it, it's nice, it's the sweetest of all melodies  
Please never stop cause, I'm just a heartbeat away  
Come on make my day Turn the grey sky into blue  
Taste my love I'm here for you  
Passion takes us high above  
So come on over, taste my love  
This is what I'm longin' for  
Taste my love, I give you more  
More you've ever had before  
Taste my love Turn the grey sky into blue  
Taste my love I'm here for you  
Passion takes us high above  
So come on over, taste my love  
This is what I'm longin' for  
Taste my love, I give you more  
More you've ever had before  
Taste my love Taste my love
