

# Resist In G Minor

## [Link 80](#)

punk police trying to keep me down. with head and heart you've got to stand your ground. they give no trust in your own decisions. they want us to be part of society's vision. don't give in, to what they tell you. fight for what's right, and don't give in. you've got to resist, the power structure at hand. make your own decisions, and we will rule this land.
