

The Price We Pay

A Day to Remember

Don't point your finger baby
This isn't the best time for you to test me
"[Incomprehensible] anyone here" she said
If it wasn't you or anyone I would lie for
Tell me, who would you lie for? Let's leave the light I'm still singing, whoa
Don't say you won't let it go 'cause you'll never know
I'm still singing, whoa
Don't say you won't let it go 'cause you'll never know Don't be so quick to blame a friend
When the smoke is cleared, there will be nobody left
"Don't be so sure of yourself" he said
If this was me, you would never know your name
Heart means everything Let's leave the light I'm still singing, whoa
Don't say you won't let it go 'cause you'll never know
I'm still singing, whoa
Don't say you won't let it go 'cause you'll never know Don't ride with me, your faith
Don't ride with me, your faith From the top of the world we'll let them know
That your biggest fear is letting go
From the top of the world we'll let them know
That your biggest fear is letting go I'm still singing, whoa
Don't say you won't let it go 'cause you'll never know
I'm still singing, whoa
Don't say you won't let it go 'cause you'll never know
